# OUR PHILOSOPHY

---

The Grip Master selects only the premium grade full grain leather and exotic hides from the world's leading tanneries. Each hide is tanned with our proprietary processes and milled for the perfect touch. The Grip Master then handcrafts the hides into the best performance grips in the world that will meet and exceed the demands of any golfer.

The Grip Master Leather grips will outlast and outperform all rubber and synthetic grips in the market today.

Since 1999 The Grip Master has worked with many of the major golf companies around the world and is now recognized as the number one brand in the golf industry for leather grips. The Grip Master is also the #1 Leather Grip on all major Tours.

Change your game, change to The Grip Master genuine leather grips.

# RESEARCH & DEVELOPMENT

---

The current demand and approval of the developed range is no accident. Constant communication and feedback with professional golfers on the world Tour has driven The Grip Master's research and development program for more than 10 years and resulted in its present wide-ranging product lines.

Since 1999 we have invested more than \$2 million on Research and Development in our patented Under Listing designs and High Tech production tooling. This includes entrenching The Grip Master brand presence on Tour.

The Grip Master has grown its world-wide presence on its knowledge and expertise in the grading, tanning, production, manufacturing and nuances of leather. And we continue to innovate as we continue to grow our presence and reputation further world-wide.

Because expertise, trust and innovation are everything to us.
